**[ASHLEY'S WISH -](#)**

Now more than ever, the world needs the hope of a wish come true. The past few years has been filled with uncertainties and challenges that resulted in delays in granting many wishes and has dealt an additional negative impact for Make-A-Wish with a revenue shortfall of 30% due to the cancellation of many fundraising activities. There is an urgent need to mitigate the impact of the pandemic by raising funds that can deliver wishes today and help us manage the backlog as life hopefully starts to return to normal over the coming months. Our team continues to work tirelessly to deliver wishes for children within the limits of COVID-19 and we've gotten pretty creative! Don't wait for hope, create it!

While imagining the possibilities of her wish, wish kid Ashley, had thought about a trip to London, England or NYC but due to COVID, decided on an online shopping spree to safely shop for all her favourite things on her wish list. The pandemic has been challenging but there are still ways to bring hope and joy to children in need. A wish is an integral part of a child's treatment journey. Research shows children who have wishes granted can build the physical and emotional strength they need to fight a critical illness. This journey not only benefits the child, but the whole family, medical staff, and community involved. Wishes make the impossible, possible — helping children replace fear with confidence, sadness with joy and anxiety with hope. Ashley's shopping wish was granted with a special surprise wish reveal bringing elements of her original wish to visit England or NYC brought to her! During Ashley's wish reveal all time stood still. There were no limitations, no thoughts of a critical illness, just pure joy. That is the magic of a wish.

We thank the New Brunswick Road Builders for your continued support in raising much needed funds for Make-A-Wish, New Brunswick despite the global pandemic so we can continue to grant wishes to children like Ashley.
